Education Week Family Science Competition

The topic for 2014 education week is....

*Scientists Do Amazing Things!*

In conjunction with our Education week celebrations, we are holding a family science competition. The questions involve researching current Australian Scientists and their achievements.

Entry forms will be handed out to each student and should be returned to class teachers by Friday 30th May.

Entries will be judged according to the correctness and detail of written answers. A prize will be awarded to each level: Foundation, Years 1/2, Years 3/4 and Years 5/6. Winners will be announced the following Monday.

As this is a family competition, we welcome the input of parents and guardians in helping their children research and record the answers.

Looking forward to lots of budding young scientists taking part in this competition.

Mrs Frith and Mrs Nicholls
