COMMUNITY INFORMATION SESSION DETAILS
Date: Wednesday 19th November 2014
Time: 7-8pm
Venue: Great Ryrie Primary School Library, Great Ryrie Street, Heathmont
RSVP: by Monday 17th November

Dear Neighbour,

Great Ryrie Primary School sees the importance of our kids travelling safely and more actively to school. We are accepting the challenge to improve the traffic congestion, to make it safer for families to walk & cycle and help our kids to be more active.

We are excited to announce a joint funded project through Great Ryrie Primary School and Maroondah Council, to address these issues. You are invited to our Community Information Session where we will be talking about how we plan to create a safer, more friendly, less congested and healthier environment for our children and community. You will hear about what we’re planning to do and how you could be involved.

WHO SHOULD COME ALONG
This session will bring together government, principals, teachers, parents, local sports clubs and residents to hear about this project and how the community can get involved.

PROJECT DETAILS
Great Ryrie Primary School is developing an Active Travel Plan, with the aim to get more people walking and riding to and from school. This project will be undertaken by parents, staff, students and the local community all working together to create safer streets for all.

To RSVP and for further information: great.ryrie.ps@edumail.vic.gov.au or 9870 6098
