VISUAL ARTS 2013

Level 3 and 4 portfolios are being completed this term with a focus on modelling skills. Level four students have created and painted a clay mug and Level three students have built a clay bird and nest and are currently finishing painting it.

Students have enjoyed working on a variety of tasks this semester including construction, painting, drawing and modelling. Displays have been created all around the corridors to showcase the efforts of the students.

Grade sixers have begun construction on their modrock masks for graduation. Each student has chosen a character or person to recreate into a mask. These will go on display for graduation and will be voted on by the staff. Chevy Northe is keen to be a winner with his Spiderman mask.
